The *Nine Commentaries on the Communist Party* (beginning on page 5 of this newspaper) was first published by The Epoch Times as a series of editorials in November 2004. The following is a summary of each chapter.

1. On What the Communist Party Is

This article concerns the impact on the civilization of China of the communist movement and the Communist Party. Looking at the history of China's last 160 years, nearly one hundred million people have died unnatural deaths and almost all of the traditional Chinese culture and civilization has been destroyed. What have been the consequences, whether the CCP was chosen by the Chinese or it was imposed on China from the outside?

2. On the Beginnings of the Chinese Communist Party

Why did the Communist Party emerge, grow and eventually seize power in contemporary China? Did the Chinese people choose the Communist Party? Or, did the Communist Party gang up and force Chinese people to accept it? The CCP has set itself above all, conquering all in its path, thereby bringing endless catastrophe to China.

3. On the Tyranny of the Chinese Communist Party

Today the Chinese Communist Party (CCP)'s violence and abuses are even more severe than those of the tyrannical Qin Dynasty. The CCP's philosophy is one of "struggle," and the CCP's rule has been built upon a series of "class struggles," "path struggles," and "ideological struggles," both in China and toward other nations.

4. On How the Communist Party Is an Anti-Universal Force

In the last hundred years, the sudden invasion by the communist specter has created a force against nature and humanity, causing limitless agony and tragedy. It has also pushed civilization to the brink of destruction. It has become an extremely malevolent force against the universe.

5. On the Collusion of Jiang Zemin with the CCP to Persecute Falun Gong

Why is Falun Gong, which upholds the principles of "Truthfulness, Compassion and Tolerance" and has been promulgated in over 60 countries worldwide, being persecuted only in China, not anywhere else in the world? In this persecution, what is the relationship between Jiang Zemin and the CCP?

6. On How the Chinese Communist Party Destroyed Traditional Culture

The CCP has devoted the nation's resources to destroying China's rich traditional culture. The CCP's destruction of Chinese culture has been planned, well organized, and systematic, made possible by the state's use of violence. Since its establishment, the CCP has never stopped "revolutionizing" Chinese culture in the attempt to completely destroy its spirit.

7. On the Chinese Communist Party's History of Killing

The 55-year history of the Chinese Communist Party (CCP) is written with blood and lies. The stories behind this bloody history are not only brutally inhumane but also rarely known. Under the rule of the CCP, 60 to 80 million innocent Chinese people have been killed, leaving their broken families behind.

8. On How the Chinese Communist Party Is an Evil Cult

The Communist Party is essentially an evil cult that harms mankind. Although the Communist Party has never called itself a religion, it matches every single trait of a religion. At the beginning of its establishment, it regarded Marxism as the absolute truth in the world. It exhorted people to engage in a life-long struggle for the goal of building a "communist heaven on earth."

9. On the Unscrupulous Nature of the Chinese Communist Party

What is most terrifying is that the CCP is going all out to try to destroy the moral foundation of the entire nation, attempting to turn every Chinese national to various degrees into a scoundrel in order to create an environment favorable for the CCP to "advance with time." It is especially important for us to understand clearly why the CCP acts like scoundrels and to discern its criminal nature.

Why we published the Nine Commentaries?

Chinese nationals authored the Nine Commentaries out of a love for their homeland, a desire to preserve China's 5,000-year-old culture, and an appreciation for the liberty and rights available to people in the West. Having seen what the Chinese Communist Party (CCP) has done to the Chinese nation, they felt a comprehensive and candid analysis of the CCP, as never before, should be written. Its purpose is to bring Chinese and other people around the world new insight into the nature of the CCP and its intentions for China and the world. The surrounding articles provided in this Special Edition were written by North American staff of the English edition of the Epoch Times, to provide context. In the Nine Commentaries, readers will discover information that has shocked and awakened people around the world, information that is disintegrating the Communist Party.
